100 Days 50 Targets

DEVELOPMENT PROGRAM

4th May to 12th August 2023

A Special Development Acceleration Drive for a Peaceful, Smart And Green Bodoland.

Foreword from Hon'ble Chief Executive Member, BTC

The ***100 Days 150 Targets Development Program*** of the Government of BTR, which commences on 4th May 2023 and will continue till 12th August 2023 is a goal-oriented program to accelerate development in the Region. The Program has been designed with the twin objectives of introducing a measurable framework to implement various works encompassing all major sectors and aligning our Development Vision to the ***Sustainable Development Goals 2030 - SDGs 2030 Framework***.

During the preparatory phase of the Program, we have undertaken comprehensive consultations with Hon'ble Executive Members, Hon'ble MCLAs, Principal Secretary and CEO, Senior BTC Officials, Departmental Heads, and other officials at various levels. The introduction of several Mission Mode Programs, Partnerships with leading organizations, reforms, and revamping of Governance structures has added several new dimensions to the Development Journey of BTR. This has brought about a momentum and focus which is expected to be substantiated by this Program.

Over the past two years, we have faced many challenges which were able to overcome with the constant support of the Government of India and the Government of Assam. My gratitude is due to the Hon'ble Prime Minister of India, Hon'ble Union Home Minister, and Hon'ble Chief Minister of Assam for their guidance and handholding during this important transitory phase where total peace has dawned on Bodoland after a prolonged period of over 40 (forty) years. It is due to their support that we have been able to conceive new ideas and solutions for our Region.

I am sure that Team BTR will cover new frontiers while ensuring our mantra of taking development to the last mile across BTR, for the benefit of every citizen. I am optimistic about the success of the Program. As I often refer to the quote ***"It is better to light a candle than to curse the darkness."***

With this spirit, I wish the ***100 Days 150 Targets Program*** all success.

(Pramod Boro)

Message from Principal Secretary & CEO, BTC

BTC is focused on achieving objective goals for the development of BTR on the lines of globally identified Sustainable Development Goals 2030. To dive deep into the process of implementation and development, BTC has initiated “The 100 Days 150 Targets Development Program”. As the program is based on the idea of convergence of diverse development partners, the implementation of the programme will involve all layers of governance including the grassroot level and create impact to the last door in accordance with the vision of our Hon’ble Prime Minister “Sabka Saath Sabka Vikas”.

The targets under the program have been meticulously drawn through a deliberation process led by Hon’ble CEM, Shri Pramod Boro, BTC, Executive Members, MCLAs and Senior BTC officials. The targets are focused on priority areas of BTC which will overall lead to an efficient governance and development, e.g; capacity building of functionaries, creation of dashboards for active monitoring and maintenance of a coherent data set up, resolving issues in time bound manner and others.

Achieving targets in a time bound manner leads to a better scope of planning and setting up of long-term goals for the region. This also motivates the community to take active participation in the process of development, making the process more holistic. “The 100 Days 150 Targets Development Program” initiated by BTC will bring in new hope and learnings in the field of development for the whole region.
